## SEMOLINA FLOUR RECIPE FOR AEX18

70 – 71 oz of Semolina flour (2,000 grams)

21 – 22 oz of Water (600 grams)

*Note: This may vary upon kitchen humidity & environment. Please adjust accordingly.*

## EGG PASTA RECIPE FOR AEX18

70 – 71 oz of Semolina flour

6 Whole Large Eggs = 10.5 oz\*

12.5 oz of Water

Eggs + Water must be whisked together  
before adding to the flour.

\*Note: 1 Large Egg = 1.75 - 1.8 oz

This may vary upon egg size. Please adjust accordingly.

## DIRECTIONS FOR SEMOLINA FLOUR + WATER:

Put semolina flour in the hopper and press mix. Drizzle 20 oz of water into the hopper while mixing. Mix for 3-5 minutes. Check the consistency after 3 minutes; it should begin to resemble a coarse streusel. Grab a handful of dough and open your palm. If you see any dry flour, drizzle the remaining liquid (2 oz) while in mix mode for 30 seconds — then begin to extrude.

Fresh Whole Berries from the farm, fresh ground flour with interchange screens for different textures, is filled with delicious flavor, wholesome goodness, and new pastabilities!

Get ready to join the food revolution and discover fresh ground flour. Exceptional flavor-filled flour to make your fresh pasta with outstanding taste and health benefits.

TYPES OF FLOUR

SEMOLINA

Semolina flour is a granular flour with a light yellow color. It is produced from durum wheat, which is used almost exclusively for making pasta. It is also high in protein and gluten. When using Semolina flour in an extruder, you will be delighted with superior results!

DURUM WHEAT

Durum wheat has the ideal properties for making the best pasta. It is high in protein and gluten, which are both necessary for pasta making.

WHOLE WHEAT

Whole wheat flour is produced from grinding the full wheat berry (kernel). All parts of the wheat berry are used in the flour including the bran, germ and endosperm; which when milled, creates the speckled brown color that is a characteristic of the flour.

GLUTEN FREE

Gluten is the protein present in wheat flour and it can be challenging to bake without it. Some popular gluten-free flours are white rice, buckwheat, millet, masa and chickpea flour.

DOUBLE ZERO

In Italy, flour is classified as 1, 0, or 00, according to how finely ground the flour is and how much bran and germ have been removed. 00 is the most highly refined flour and is talcum powder soft, yet holds its protein and nutritional value.
