

EXTRUDER + MIXER | COUNTER TOP

MODEL AEX30

IMPROVING ON THE ORIGINAL

STELLA

ARCOBALENO®

STANDARD FEATURES

- Stainless steel mixer & extruder– all-in-one process
- Up to 30 lbs hourly production, 11.5 lbs per batch
- Over 150 dies to choose from
- Digital display for ease of use
- Recipe storage with programmable pre-set mixing and extruding speeds
- Includes automatic cutting knife for short pastas
- Water cooling feature to help maintain a constant extrusion temperature with digital temperature readout
- Industrial, high-torque motor, 120 Volts
- Crumbly dough mixture is extruded through a solid brass die to create over 150 possible pasta shapes
- Removable auger & stainless steel mixing arm for easy cleaning
- Portable, compact & versatile machine is easy-to-use
- Factory and on-location training. The Only Full-Service Pasta Machine Manufacturer in North America!

OPTIONAL FEATURES & ACCESSORIES

- ☐ Pasta trays - Perforated - Dim: 15.5"W x 23.5"D x 2.75"H
- ☐ Pasta trays - Solid - Dim: 15.5"W x 23.5"D x 2.75"H
- ☐ APC8 Mobile pasta cart with 8 trays
- ☐ APC20 Mobile pasta cart with 20 trays
- ☐ Cooling water tank with recirculating pump & automatic on/off feature
- ☐ Lasagna sheet die with 6.8" dough sheet width and Adjustable Thickness: 1/32" - 3/16"
- ☐ Rolling pin for lasagna sheet die
- ☐ Extruder dies with Teflon inserts

⚡ 120 Volts

WHAT'S NEW?

- Larger volume mixing & extruding hopper
- Digital display for ease of use
- Programmable recipe storage with adjustable mixing & extruding speeds
- Cutting knife holder
- Updated Ergonomic design

Optional
APC8 Pasta Cart

SEMOLINA FLOUR RECIPE FOR AEX30

141–142 oz of Semolina Flour (4,000 grams)

42–43 oz of Water (1200 grams)

Note: This may vary upon kitchen humidity & environment. Please adjust accordingly.

EGG PASTA RECIPE FOR AEX30

141–142 oz of Semolina flour

12 Whole Large Eggs = 21 oz*

21 oz of Water

Eggs + Water must be whisked together before adding to the flour.

*Note: 1 Large Egg = 1.75 - 1.8 oz

This may vary upon egg size. Please adjust accordingly.

DIRECTIONS FOR SEMOLINA FLOUR + WATER:

Put semolina flour in the hopper and press mix. Drizzle 41 oz of water into the hopper while mixing. After 1 minute, it should begin to resemble a course streusel. Check the consistency by grabbing a handful of dough and open your palm. If you see any dry flour, drizzle the remaining liquid (2 oz) while in mix mode for 30 seconds — then begin to extrude.

Fresh Whole Berries from the farm, fresh ground flour with interchange screens for different textures, is filled with delicious flavor, wholesome goodness, and new pastabilities!

Get ready to join the food revolution and discover fresh ground flour. Exceptional flavor-filled flour to make your fresh pasta with outstanding taste and health benefits.

TYPES OF FLOUR

SEMOLINA

Semolina flour is a granular flour with a light yellow color. It is produced from durum wheat, which is used almost exclusively for making pasta. It is also high in protein and gluten. When using Semolina flour in an extruder, you will be delighted with superior results!

DURUM WHEAT

Durum wheat has the ideal properties for making the best pasta. It is high in protein and gluten, which are both necessary for pasta making.

WHOLE WHEAT

Whole wheat flour is produced from grinding the full wheat berry (kernel). All parts of the wheat berry are used in the flour including the bran, germ and endosperm; which when milled, creates the speckled brown color that is a characteristic of the flour.

GLUTEN FREE

Gluten is the protein present in wheat flour and it can be challenging to bake without it. Some popular gluten-free flours are white rice, buckwheat, millet, masa and chickpea flour.

DOUBLE ZERO

In Italy, flour is classified as 1, 0, or 00, according to how finely ground the flour is and how much bran and germ have been removed. 00 is the most highly refined flour and is talcum powder soft, yet holds its protein and nutritional value.
